Team Project

Web Site Design

Purpose

Your final project for the class will be to put into practice what you have learned about style sheets. You need to replicate the attached Red Ball Pizza Restaurant Customer Survey web page.

The project objective is to design and develop a Web site using recommended design practices. You will work to prepare final project based on a case problem (Red Ball Pizza Restaurant). You should use all techniques covered in HTML and CSS courses.

You must adapt your website so that it works equally well on a desktop computer, tablet, or mobile phone device.

Demonstrate a good understanding of CSS and particularly what you've learned. You do not need to incorporate every piece of CSS into your project. Most projects rarely do! Instead, try to tailor your use of CSS to the project.

All projects must be turned in at the due date of the course.
